## Program Objectives

---

- To demonstrate through live surgery various techniques for TRAM flap reconstruction, mastopexy, and breast augmentation.
- To provide updated panels discussing various aspect of aesthetic and reconstructive breast surgery.
- To present current trends and techniques in breast augmentation and results using various implant types , shapes, and surfaces.
- To evaluate a variety of techniques used in breast reduction.
- To discuss problem cases and complications presented from the audience to a panel of experts

## Special Guests

---

Special Guest Honorary Hartrampf Lecture given by R. Barrett Noone, MD, Executive Director ABPS

Each year the Southeastern Society of Plastic and Reconstructive Surgeons (SESPRS) offers the Foreign Scholars Program which provides funds to designated geographic areas to support the education of the top chief residents in plastic surgery. The 2009 Foreign Scholars are invited from Japan.
