*The best come to
learn from him...*

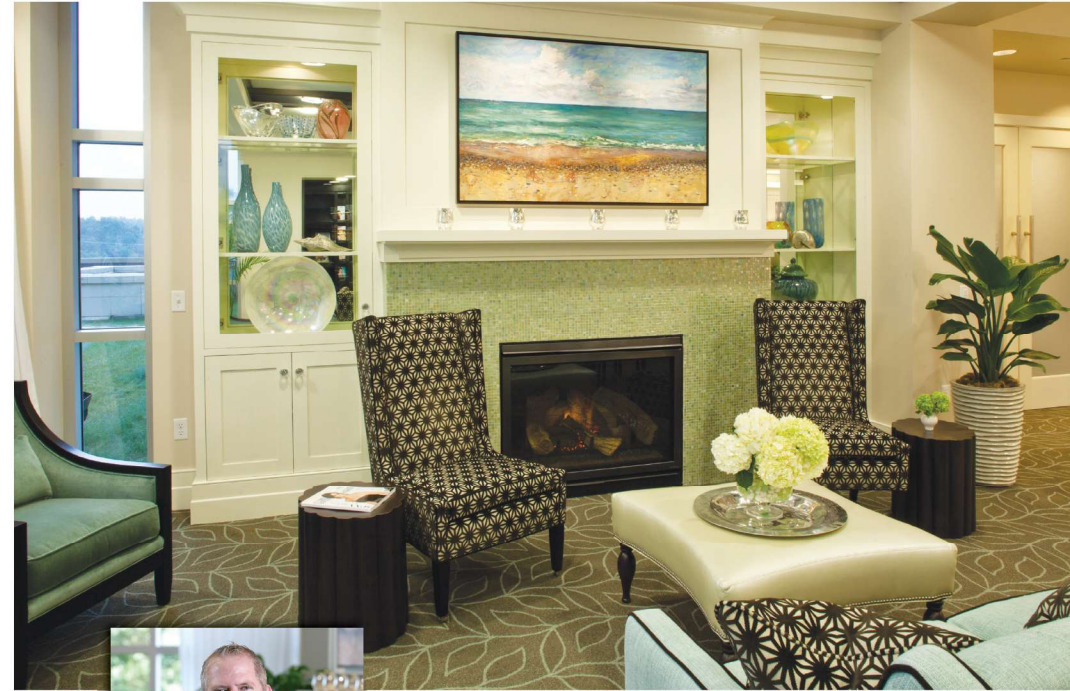

BY J. STAPLETON BURCH

GRAND RAPIDS IS FORTUNATE to claim some of the best medical professionals in the world. Dr. Brad Bengtson is among them. This nationally recognized leading Board-Certified Plastic Surgeon brings 20 years experience and the highest level of surgical expertise to his patients. He also is greatly lauded by his peers as both a leader in groundbreaking research and as an educator who has shared his expertise in breast augmentation surgery as well as other cosmetic procedures – both surgical and nonsurgical – with thousands of colleagues around the world. His peers have awarded him the plastic surgery “Best Doctors in America®” title for 17 consecutive years, and he is

a double recipient of the Tiffany Award, the American Society for Aesthetic Plastic Surgery’s most prestigious research and scientific exhibit honors. Readers of Grand Rapids Magazine have also recognized him as “Best Plastic Surgeon” in the annual “Best Of Grand Rapids” awards for 3 consecutive years. He is also one of the top Board-Certified Plastic Surgeon injection trainers in the country for BOTOX® Cosmetic and Juvéderm® facial fillers. Dr. Bengtson has also achieved Black Diamond Level Status for BOTOX Cosmetic and facial fillers. This is the highest level awarded to physicians by Allergan, the maker of BOTOX and Juvéderm.

A nationally recognized leader in breast related surgeries including, Breast Augmentation, Revisional/Secondary Breast Surgery and Breast Lifts & Reduction. He is a major investigator in the United States for the “gummy bear” cohesive gel breast implants and a national and international educator and leader in breast aesthetic research. Dr. Bengtson has also brought to West Michigan the first and only Vectra 3-D imaging system, allowing patients to see their individualized potential outcomes.

At the Bengtson Center for Aesthetics and Plastic Surgery, he has created a five-star center of excellence and service providing his patients individualized focus for the Center’s comprehensive cosmetic and plastic surgery services. Nestled on the first floor of the Women’s Health Center, the Bengtson Center is more akin to checking into a

fine hotel with beautiful surroundings – complete with a fireplace, warm reading nook and skin-care bar. Patient confidentiality is carefully maintained with a private entrance into the building. A concierge welcomes guests and directs them to either the skin care, injectable or plastic surgery center.

Dr. Bengtson provides a wide range

of surgical and non-surgical procedures such as SlimLipo™ laser liposuction, CoolSculpting® body contouring and Ultherapy® skin tightening. He is a member of the Allergan Medical Facial Aesthetics Speakers Bureau and is a leader in surgical and non-surgical facial aesthetics.

“As a practicing plastic surgeon, I take great responsibility not only to treat my patients with the very best protocols for good outcomes and safety, but also to research and evaluate different devices so that we may continue to improve quality, outcomes and experiences,” Dr. Bengtson noted. “It’s all about the patient and their experience. Every person is unique, and if we can expand the universe of safe and trusted options we will meet each person’s needs with best practices.”

Dr. Bengtson graduated summa cum

laude from Anderson University and earned his Doctor of Medicine with honors from Indiana University School of Medicine. He is Board-Certified by the American Board of Plastic Surgery, a member of ASAPS, the American Society of Plastic Surgeons and the Christian Medical Society. He has authored over 20 peer-reviewed articles, as well as 10 books and chapters, and has delivered over 100 national and international presentations. Dr. Bengtson is a true leader in his field and has proven one of the most talented in creating the natural-looking facial, breast and body results patients desire. “Our team looks forward to providing distinctive care and experiences for our patients, their families and our community,” he concluded.
