

About

Bradley Bengtson, MD

Dr. Bradley Bengtson is a distinguished expert in advanced breast augmentation and abdominoplasty, specializing in the art of enhancing his patients' natural beauty. His approach incorporates cutting-edge techniques that revolutionize these procedures. He emphasizes the importance of 3-D simulation and implant selection, allowing patients to visualize their desired results before surgery. He states, "Innovations that make breast surgery an easier process to undergo include 3-D simulation and implant selection." Furthermore, his use of highly cohesive Gummy Bear implants with minimal wrinkling and higher fill ensures natural, long-lasting results. With a 'bloodless surgery' approach that minimizes bruising, swelling, and pain, he delivers beautiful results with a smoother recovery. His wealth of experience ensures beautiful outcomes tailored to match specific patient desires, solidifying his reputation as a leading expert in breast and body procedures.

"The Best Plastic Surgery is in Patients You Can't Tell Have Had It!"

Natural-Looking Fullness

To add volume to this 54-year-old patient's breasts, Dr. Bengtson performed an augmentation using an implant which gave her a fuller, natural-looking result.

Proportional Perfection

Dr. Bengtson enhanced this 39-year-old patient's look with a breast augmentation, creating natural volume and proportion that complements her frame.
