Patient Testimonials

I searched all of Illinois and Michigan for the right plastic surgeon. Dr. Bengtson's credentials and research were enough for me to make a consultation appointment. Once I was in his amazing office I was in awe! The environment was relaxing and warm, the entire team made me feel so at ease. Dr. Bengtson was extremely patient with all of my questions and spent so much time with me. I couldn't be more ecstatic about my results. I had a full tummy tuck, body contouring, and a breast augmentation and lift. Thank you Dr. Bengtson for giving me my body back! - JenniferV

I heard about him from a friend. Then I went to Dr. Bengtson's office and was so impressed with him and his staff. His credentials are very impressive as well. I know a significant percentage of his Augmentation surgeries are actually correcting other doctors mistakes, now that says a lot. I checked out several different doctors in the Grand Rapids area when a friend told me about Dr. Bengtson. My husband and I were very comfortable with him from the initial consultation. I have told several friends about Dr. Bengtson and they have been thrilled too. I felt like I had to share with the Real Self community about how wonderful my experience has been with Dr. Bengtson and his wonderful staff. I am so thankful!!! - ChristinaK

Dr. Bengtson is very talented. He was able to fix my wife's breasts after another local doctor made a mess of them. Dr. Bengtson had his work cut out for him. My wife started out with small saggy breasts after breast feeding for a few years. She went to another local doctor to have her breasts fixed to make them more natural and youthful. After two surgeries with the first doctor, my wife ended up with large saggy breasts and her nipples were extremely large, uneven and severely scared. You could feel and see the implants. We were very disappointed. We were very leery interviewing other doctors to fix her breasts. Dr. Bengtson and his staff were very helpful. Dr. Bengtson under promised and over delivered. He did an amazing job. My wife's breasts look amazing. They're natural and youthful looking, they feel like real breasts. He moved the nipples up higher, made them smaller and circular again. My wife has full sensation as before. The scaring after a year is minimal. We are very happy with Dr. Bengtson and his work and would highly recommend him. - SteveP

I had such an amazing experience with Dr. Bengtson and his staff. They were caring, professional and put me at ease through the entire process. I was so thankful to be under the care of such an amazing plastic surgeon. Dr. Bengtson is gifted both in his ability to offer stellar medical care and his ability to connect and understand the needs of his patients. Thank you Dr. B... YOU are the best and have been such a blessing to me! - LisaZ
